

CERTIFIED MWBE ENTERPRISE

KAIROX GLOBAL TRADE INC

Fresh Organic Fruits, Vegetables & Cold Chain Logistics Specialists

Supplying State, Local Government, and Commercial Partners Across Southern Florida & Beyond with
Uncompromised Farm-Fresh Quality.

MWBE Certified Core Capabilities

State & Local Contracts

Certified MWBE vendor structured specifically to bid, secure, and reliably execute state, county, municipal, and institutional fresh produce supply contracts.

Organic Produce Import

Direct farm-to-table sourcing of top-tier organic fruits and vegetables, eliminating middlemen to ensure farm freshness, full traceability, and competitive volume pricing.

Cold Chain Logistics

End-to-end temperature-monitored refrigerated transit and storage, safeguarding perishable harvests from international origin to Southern Florida distribution hubs.

A Message From Our CEO

Karoline Paredes

CEO & Founder, Kairox Global Trade

"Carrying forward a 3rd generation family legacy of produce importers and exporters. I am proud to lead Kairox Global Trade with our family's unbroken tradition of hard work, meticulous attention to detail, and a flawless record of never missing a quota!"

 **3RD GENERATION PRODUCE IMPORTER**

Declaración de la Dirección (Spanish Statement)

"Soy Karoline Paredes, ecuatoriana, y desde joven he estado interesada en el mundo de los negocios y el comercio internacional. Mi experiencia trabajando con proveedores, clientes y operaciones entre distintos países me permitió conocer de cerca las oportunidades y desafíos que existen en este sector. Decidí fundar KAIROX GLOBAL TRADE LLC en Estados Unidos con el propósito de desarrollar nuevas oportunidades comerciales y construir una empresa con proyección de crecimiento. Para mí, KAIROX representa la oportunidad de convertir esa experiencia y visión empresarial en un proyecto sólido a largo plazo."

Freight & Route Optimization

- ✓ **Perishable Freight Lane Modeling:** In-depth historical lane analysis specifically tuned for perishable fruit and vegetable transit times.
- ✓ **Backhaul Route Planning:** Dynamic refrigerated fleet matching that eliminates empty reefer runs and reduces overall carbon emissions.
- ✓ **Transit Delay Mitigation:** Real-time weather and port congestion scheduling ensuring sensitive organic produce bypasses distribution bottlenecks.
- ✓ **Florida & Regional Dispatch:** Optimized delivery routes covering Miami-Dade, Broward, Palm Beach, and broader regional distribution corridors.

Carrier & Import Procurement

Global Sourcing & Rate Intelligence

Kairox Global Trade Inc manages complete multi-modal freight contracts spanning Full Truckload (TL), Less-Than-Truckload (LTL), Ocean Reefer Containers, and Expedited Air Freight.

By aggregating international import volumes from vetted South American and global growers, we secure highly predictable freight rates and guaranteed cold-chain capacity for state and local government contracts.

Perishable Organic Cold Chain

- ✓ **IoT Telemetry Monitoring:** Continuous real-time multi-zone temperature sensors guaranteeing pristine cold-chain integrity from farm harvest to table.
- ✓ **Spoilage Reduction Protocols:** Customized airflow loading and reefer humidity controls that preserve organoleptic quality and extend shelf life.
- ✓ **Expedited Agricultural Corridors:** Fast-track customs clearance and priority transport lanes for highly sensitive organic fruits and vegetables.
- ✓ **USDA Compliance & Safety:** Strict adherence to food safety standards and USDA inspection protocols for imported fresh produce.

Organic Produce Import Portfolio

Tropicals & Berries

Fresh organic mangos, avocados, bananas, and premium berries sourced directly from Latin American partner orchards.

Organic Harvest Greens

High-grade organic vegetables, leafy greens, and root produce harvested and packed under strict sanitary standards.

Institutional Bulk Produce

Reliable bulk palletized shipments tailored for government facilities, school districts, and commercial distributors.

Technology & Cold Chain Telematics

Reeper Telematics

Integrated automated vehicle health, temperature logs, and driver dispatch software dedicated to refrigerated fleet assets.

TMS Deployment

Specialized Transportation Management Systems optimized for fresh produce cross-docking and rapid dispatch scheduling.

Real-Time Tracking

API integrations offering end-to-end shipment visibility, automated client alerts, and immediate thermal variance notifications.

Uncompromising Fulfillment Standards

100%

Quota Fulfillment Record

Legacy of Reliability

At Kairox Global Trade Inc, missing a quota is never an option. Grounded in a 3-generation legacy of produce international trade, our team combines deep agricultural knowledge with modern logistics systems.

State, local, and commercial contract partners rely on us for guaranteed volume fulfillment, exact delivery windows, and pristine produce quality on every order.

Contract Performance & Case Studies

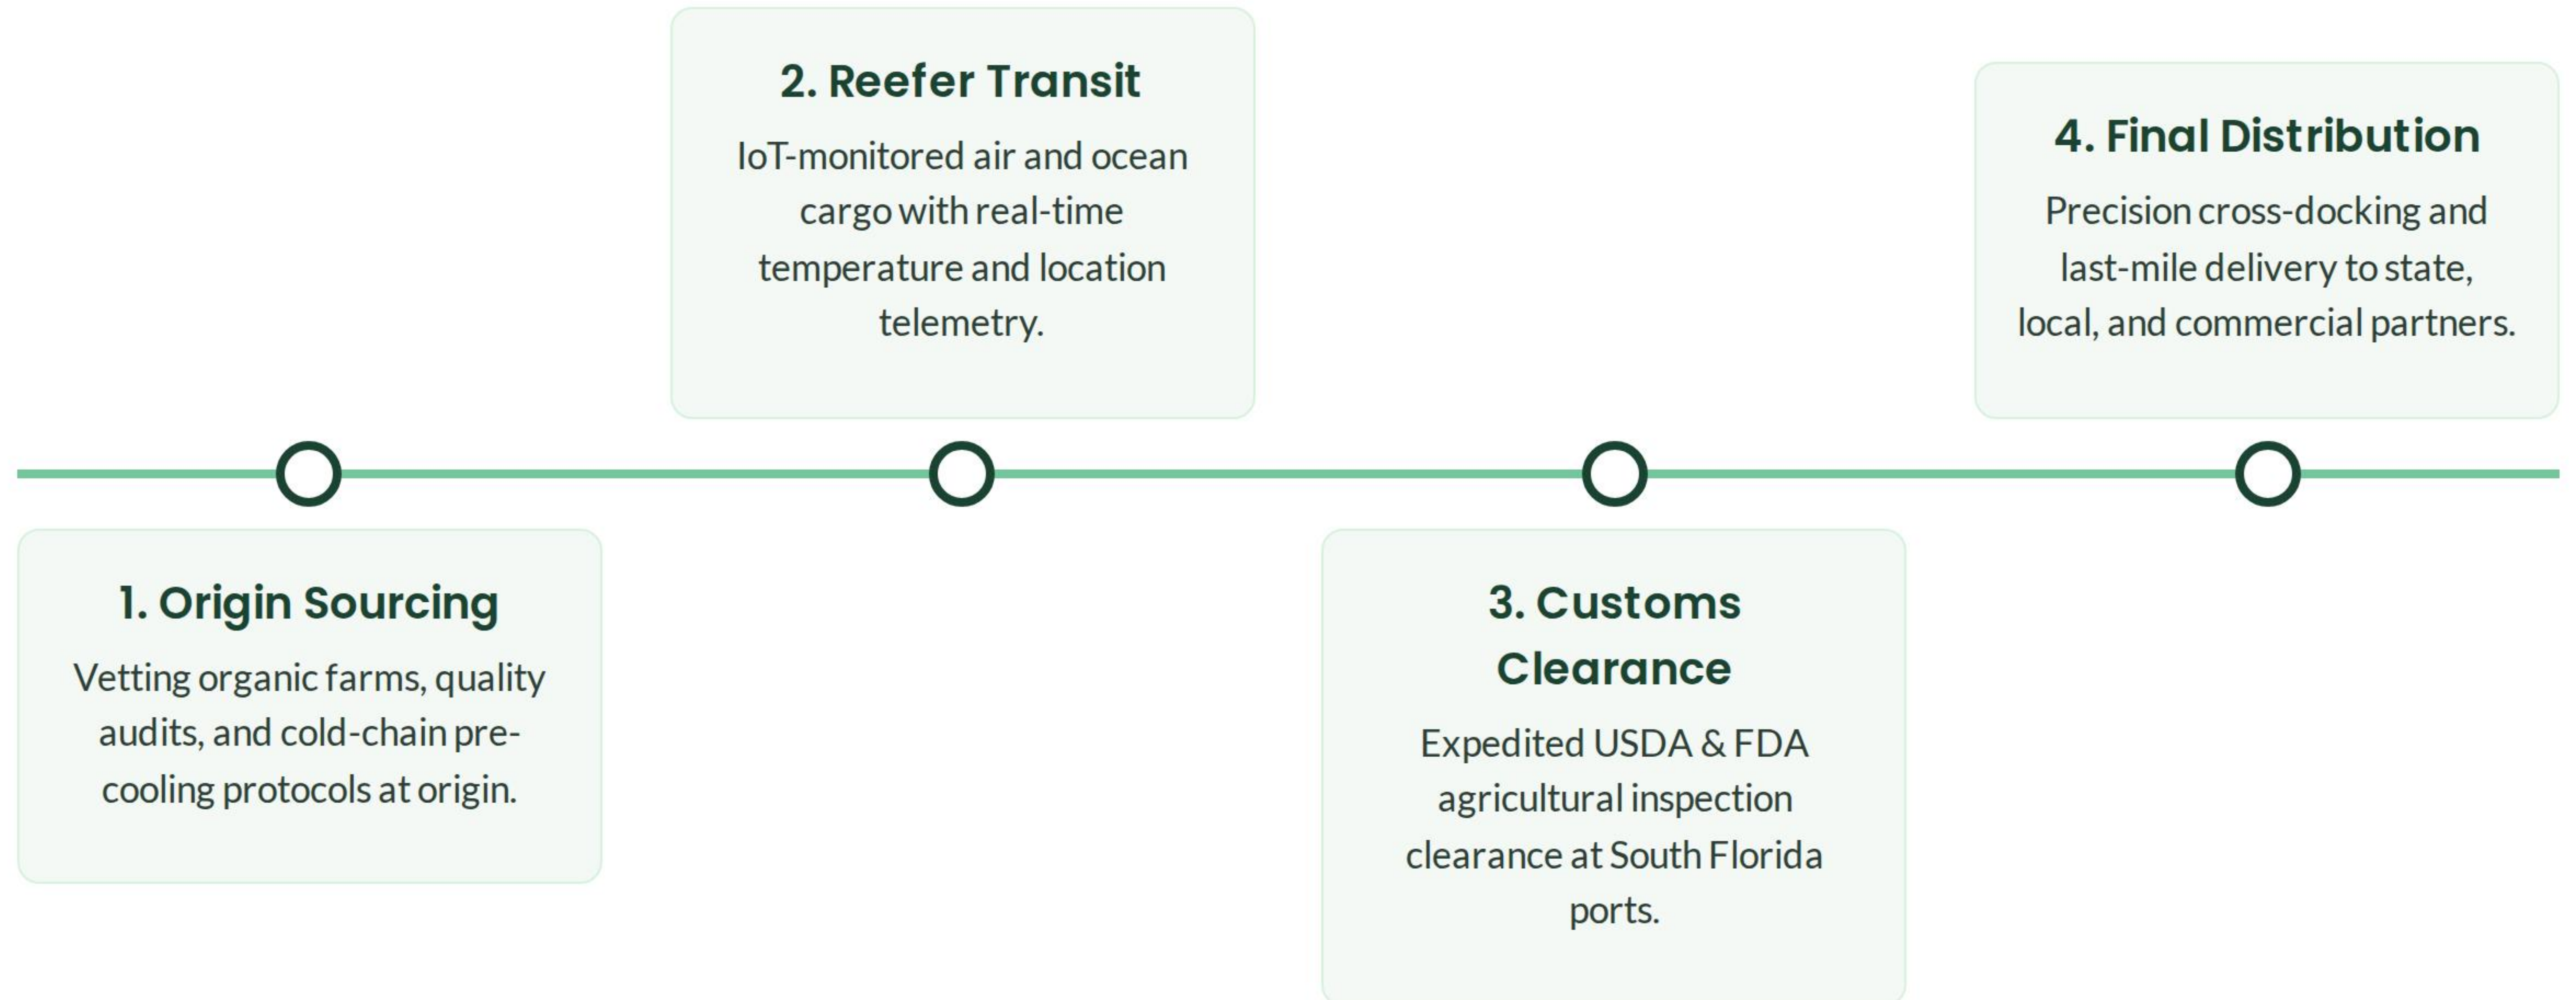

Partner Sector	Core Challenge	Kairox Strategy Applied	Measured Impact
State & Municipal Contracts	Strict delivery deadlines & quality standards	MWBE priority lanes & pre-inspected organic harvests	100% Quota Met
Regional Fresh Produce Buyers	High cargo spoilage during long-haul transit	IoT cold-chain telemetry & reefer airflow optimization	35% Reduction in Spoilage
South Florida Wholesalers	Fluctuating freight rates & import delays	Direct ocean/air contract restructuring & farm direct sourcing	18% Savings in Freight Cost
Institutional Food Services	Lack of real-time shipment transparency	Integrated TMS with real-time temperature tracking	99.4% On-Time Delivery

Key Performance Indicators

Average client operational performance metrics recorded across Kairox Global Trade produce import and cold chain distribution contracts.

The Kairox Import Methodology

Multi-Modal Import Scope

Ground Reefer Logistics

Temperature-controlled produce transportation, backhaul route optimization, and dedicated regional fleet dispatch across Southern Florida and regional state networks.

Port & Warehouse Operations

Strategic port clearance management, reefer cross-docking, temperature-regulated warehousing, and seamless inventory flow control.
